

SHIVESH LAL SINGH

Senior Full-Stack Engineer

Kathmandu, Nepal • +977 9840726778 • cvesh.singh@gmail.com • github.com/cvesh

PROFESSIONAL SUMMARY

Senior full-stack engineer with **13+ years of web application experience** building and shipping production systems end-to-end. At ZenLedger, a leading crypto-tax SaaS platform, I design and ship scalable APIs and web applications powering high-volume financial data processing. Comfortable owning features across the stack—architecture, backend services, modern frontends (React / Next.js / Angular), database design, and cloud deployment—and mentoring teammates along the way.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Ruby, PHP, Go (working knowledge)
Frontend	React, Next.js, Angular, HTML5, CSS3, Tailwind, Responsive Design
Backend	REST & GraphQL APIs, Microservices, Ruby on Rails, Background Jobs (Sidekiq), PHP (WordPress, CodeIgniter)
Databases	PostgreSQL, MySQL, MongoDB, Redis
DevOps & Cloud	AWS (EC2, S3, RDS), Azure, Docker, Capistrano, CI/CD pipelines, Git
Practices	TDD & Testing (RSpec, Jest), Code Reviews, Agile / Scrum, Performance Tuning, API Design, Mentoring

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer (Senior) — **ZenLedger, Inc.** *Dec 2018 – May 2026*

Crypto tax & accounting SaaS — Next.js, Ruby on Rails, Go.

- Architect and maintain core backend services that process millions of crypto transactions across 400+ exchanges and wallets for tax-report generation.
- Design and ship REST APIs consumed by the Next.js web application and partner integrations, with a strong focus on data integrity, idempotency, and background-job throughput.
- Lead end-to-end feature delivery—from technical design and database schema changes to deployment, monitoring, and post-launch tuning.
- Improved performance on data-heavy pipelines through indexing, batching, and selective denormalization, cutting long-running job times significantly.
- Mentor junior and mid-level engineers via code reviews, pairing, and internal engineering best-practice guidelines.
- Collaborate cross-functionally with Product, QA, and DevOps in a fully remote, Agile environment.

Software Engineer — **Bajra Technologies Pvt. Ltd.** *Sep 2014 – May 2018*

Product engineering studio building full-stack web applications for global clients.

- Built and shipped **AirScout Enterprise Cloud** for Textron — a cloud API for cellular signal heatmap ingestion and PDF report generation used by enterprise field teams.

- Delivered multiple client projects as a backend engineer: integrating third-party APIs, building admin dashboards, and writing automated test coverage.
- Owned deployments to AWS EC2 using Capistrano; configured zero-downtime release flows.
- Contributed to the company website (AngularJS frontend, API backend) and internal tooling.

Web Developer — Access-Keys Pvt. Ltd. May 2013 – Aug 2014

Started as Trainee Web Developer (May–Aug 2013), promoted to Web Developer.

- Developed PHP / WordPress / CodeIgniter websites and CMS-driven sites for local and overseas clients.
- Built responsive frontends and converted design mockups to pixel-accurate HTML/CSS/JavaScript.

SELECTED PROJECTS

ZenLedger — www.zenledger.io

SaaS platform for crypto tax and accounting; large-scale data import, reconciliation, and tax-form generation.

Stack: Next.js, React, Ruby on Rails, Go, PostgreSQL, AWS

AirScout Enterprise Cloud — airscoutenterprise.textron.com

Cloud API for AirScout Enterprise: signal-heatmap processing and automated PDF reporting for Textron field teams.

Stack: PostgreSQL, AWS, Ruby on Rails

TwitchScrape — github.com/cvesh/twitchscrape

Open-source app that scrapes and visualizes public Twitch data via an API backend and React frontend.

Stack: React, Ruby on Rails

Bajra Technologies — bajratechnologies.com/home

Company marketing site with an AngularJS frontend backed by an API service.

Stack: AngularJS, Ruby on Rails

Yatri Kathmandu Suite — www.yatrikathmandusuite.com

Hotel website with booking enquiry flows.

Stack: PHP (CodeIgniter), MySQL

Propak — www.propak.com

Corporate website built and customized on WordPress, including theme customization and content management.

Stack: WordPress, PHP, MySQL

EDUCATION & TRAINING

Bachelor in Information Management (BIM) — CGPA 3.68 NCCS College, Paknajol, Kathmandu

Graphic Design — Adobe Photoshop & Illustrator Arena Multimedia, Kantipath, Kathmandu

CORE STRENGTHS

- Self-motivated, dependable, and comfortable owning ambiguous problems end-to-end.
- Strong written and verbal communication; works well in distributed, async teams.
- Continuous learner — keeps up with the modern web stack across frontend, backend, and tooling.
- Pragmatic about trade-offs: ships maintainable code over clever code.
